

# MCC, Inc. – Scope of Services

MCC, Inc., established in 1926, can provide the industry solution that your construction project needs. From asphalt to concrete, aggregates to recycling, and site prep to demolition, MCC, Inc. can be your single point of contact for all of your construction needs. Please see our list of services below, and if you do not see your specific need listed below, please do not hesitate to call and we will help you find a solution:

- **Aggregate Division**

- MCC's Aggregate Division specializes in all types of construction aggregates and recycled materials for any type of project. We can fulfill your project quantities from one ton to hundreds of thousands of tons. Equipped with crushers, wash plants, recycling equipment, and much more, MCC, Inc. can produce the materials that will create the base of your project needs. Partner that with an operational fleet of nearly 75 dump trucks, MCC can haul or deliver the products you need.

- **Asphalt Division**

- From state highways and municipal streets, to commercial parking lots and expansion projects, MCC's Asphalt Division can supply your construction project with the pavement you need. With multiple prep and paving crews, this division can handle any type of specification needed to create the pavement you need to finalize an expansion, build a subdivision, or house the day to day traffic of Eastern Wisconsin.

- **Concrete Division**

- MCC, Inc.'s Concrete Division consists of over 100 front-discharge ready mix trucks that are ready to deliver the highest quality product to your construction site. With knowledgeable and customer-focused operators, MCC's Concrete Division can supply its customers with any mix needed to build a successful foundation to a project.

- **Site & Civil Construction Division**

- Whether reconstructing a highway or prepping a commercial location for expansion or construction, MCC, Inc. has the equipment and personnel to perform nearly any type of heavy construction. Equipped with excavators, dozers, compaction equipment, haul trucks, and much more, the company can build your project from the ground up.
